Dear Dr. Henney

I am writing to express my concern ower the FDA's regulation of genetically engineered (GE) food to ask that the agency's current policies be changed, and to support all the points in dockst # 00P-12M/CP1

Mall GE Foods should be labeled so I am informed and have a choice.

UGE Foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing

Description of GE Foods until long-term studies show they are safe for human health and the environment.
